Produtech ISEO laser line,
1 kW A2 series, 1250 version

Produtech S.r.l. design and produce coil-fed lines for punching and laser-cutting metal sheet (even pre-painted or covered with protective film)

- **Coil feeding:** New concept for improved production results

- **Laser cutting:** Speed & productivity with low energy consumption

- **Punching:** Cutting & Forming with one line

On our website, please find a lot of videos

Costs reduction: coils are cheaper than blanks

Time waste reduction: easy & fast coil change, automatic stacking of finished parts

Reduced space occupancy: compact coils VS bulky pallets with blanks

Reduced energy consumption: low energy usage with great production rates and speed

Reduced maintenance: linear & torque motors without mechanical transmissions

Long parts production: parts with 12 m length and over, without limits

Nesting programs: all the parts of an order are placed on the whole coil width (20-30% raw material saved)

The project Piattaforma India has been promoted by UCIMU – Association of Italian Machine Tools Manufacturers and AMAPLAST – Italian Plastics and Rubber Processing Machinery and Moulds Manufacturers Association. The two associations agreed on the idea that promoting a network of associations and entrepreneurs who have developed knowledge and experience on the Indian market, can be useful in favoring of new paths of development for business. The Indian companies who are interested to form JV, cooperation, technical tie up, purchase machinery etc from/with Italian companies can contact below mentioned address for any assistance:
