CUTTING-EDGE WORKPLACES FOR HRSFLOW IN ITALY AND ABROAD

The construction of the new HRSflow site is now drawing to an end with an area of approximately 3,000 sqm: a significant expansion for the San Polo headquarters (Italy). Entirely designed according to the lean manufacturing criteria, the new workspace completes the project with which the company has brought a reappraisal and a re-design for the hot runners' assembly process. The goal is to guarantee an increase in the production capacity and more flexibility for the clients of the European market.

Moreover, always engaged in the research and development of cutting-edge technological solutions, HRSflow has recently been selected among the top 10 Italian manufacturing companies in China.

In 2009 HRSflow arrived in Hangzhou - near Shanghai - where the new production plant was established to better serve the Asian market. From his foundation the company has heavily invested in robots and automated lines which run 24/7 to ensure a precise and reliable process. The design, production and quality procedures are identical to the ones of the Italian Headquarter with the aim of granting the same standard in terms of product quality and after-sale service. The growth of the company has been fed with a wise combination of local talents empowerment and Italian expertise making today HRSflow the market leader of hot runners in the automotive plastic industry.

The project Piattaforma India has been promoted by UCIMU – Association of Italian Machine Tools Manufacturers and AMAPLAST – Italian Plastics and Rubber Processing Machinery and Moulds Manufacturers Association. The two associations agreed on the idea that promoting a network of associations and entrepreneurs who have developed knowledge and experience on the Indian market, can be useful in favoring of new paths of development for business. The Indian companies who are interested to form JV, cooperation, technical tie up, purchase machinery etc from/with Italian companies can contact below mentioned address for any assistance:
