## **CELEBRATING 40 YEARS WITH ST BLOWMOULDING**

*On the occasion of ST BlowMoulding's 40th anniversary, its management team decided to dedicate a thought to those who took part in the company's history, established in 1980. "It has been 40 years of goals, choices and sometimes daring changes, constant commitment and a lot of satisfaction. Special thanks go to those who have believed in us over the years: our partners and customers who have honoured us with their trust, the employees and all the professionals who, with their passion and competence, have contributed making this milestone possible".*

*One of the greatest successes of ST BlowMoulding, leader in suction blow moulding technology, is the ASPI Series blow moulding machines; more than 140 models have been sold in just over 10 years. Even in the technological field, there was no lack of significant innovations such as the 4WDS lateral radial thickness control system and D-Print / W-Print parison marker devices.*

*Furthermore, the last few years highlighted the ever more constant presence of ST BlowMoulding in the industrial packaging field with the increasing production of blow moulding machines for the manufacturing of Intermediate Bulk Containers (IBC) and machines with Parison Transfer technology for L-Ring drums, like ECT 880 CoEx3 showed in the picture.*

*Today, the Italian company has over 400 machines sold worldwide and an increasing investment in research and development of new technologies.*

The project Piattaforma India has been promoted by UCIMU – Association of Italian Machine Tools Manufacturers and AMAPLAST – Italian Plastics and Rubber Processing Machinery and Moulds Manufacturers Association. The two associations agreed on the idea that promoting a network of associations and entrepreneurs who have developed knowledge and experience on the Indian market, can be useful in favoring of new paths of development for business. The Indian companies who are interested to form JV, cooperation, technical tie up, purchase machinery etc from/with Italian companies can contact below mentioned address for any assistance:
