## **COLINES KEEPS GROWING IN INDIA: A NEW CPP LINE WAS SUCCESSFULLY SUPPLIED TO SPARSH INDUSTRIES**

Covid-19 could not stop COLINES expansion in India. The Italian company supplied and started a new CPP line, strengthening their partnership with the producer Sparsh Industries. India-based Sparsh Industries is a leading flexible packaging solution providing company and it is currently experiencing a huge expansion. The new line supplied by COLINES is a 3,2 meters CPP line (with 5 extruders for the maximum flexibility in production), equipped with the latest MDO technology boosted with the unique and patented infrared heating system. The line is currently working smoothly and already reached over 1000 tons of film produced.

Sparsh Industries is the first company in India to order and commission such a flexible MOPP line, able to produce CPP and MOPP film as per requirements. This line is capable to produce both PP and PE film.

*"Notwithstanding the Covid-19 pandemic and all the consequent issues, the commissioning was successfully accomplished in due-time and this is very important for us" said Ashutosh Agarwal, CEO of SPARSH INDUSTRIES.*

*"It was not easy to accomplish the commissioning in due-time but we can say that we achieved successful solutions to the travel-restrictions issue. It was a good combination between using technology, such as virtual and augmented reality, and building local teams of technicians in different world areas, which is something that in India we started already years ago thanks to the partnership with the prestigious company HI-TECH International. This became a model that we are replicating in several parts of the world"* said Eraldo Peccetti, Executive President of COLINES.

The project Piattaforma India has been promoted by UCIMU – Association of Italian Machine Tools Manufacturers and AMAPLAST – Italian Plastics and Rubber Processing Machinery and Moulds Manufacturers Association. The two associations agreed on the idea that promoting a network of associations and entrepreneurs who have developed knowledge and experience on the Indian market, can be useful in favoring of new paths of development for business. The Indian companies who are interested to form JV, cooperation, technical tie up, purchase machinery etc from/with Italian companies can contact below mentioned address for any assistance:
