FOR ITS 45TH ANNIVERSARY, BFM INAUGURATES A NEW SHED

Founded in 1975, BFM today is a leading manufacturer of automatic haul-offs and winders for extrusion blow-moulding lines and flexographic printers with central drum up to 10 colours, as well as 2, 4, 6 and 8 colour stack-type printers. To celebrate its first 45 years in the business BFM has expanded its headquarters in Solbiate Olona (near Varese, Italy) with a new shed adjacent to the existing one.

The new structure adds 1,500 square meters to the 3,000 already existing, hosting activities such as machinery assembly, research and development as well as a showroom. In the face of the difficulties of the moment, this investment was instrumental to support the company's growth, driven by a technological upgrade strategy that is involving the entire range of BFM products as part of a wider investment plan aimed at enhancing the company's technologies and resources.

The project Piattaforma India has been promoted by UCIMU – Association of Italian Machine Tools Manufacturers and AMAPLAST – Italian Plastics and Rubber Processing Machinery and Moulds Manufacturers Association. The two associations agreed on the idea that promoting a network of associations and entrepreneurs who have developed knowledge and experience on the Indian market, can be useful in favoring of new paths of development for business. The Indian companies who are interested to form JV, cooperation, technical tie up, purchase machinery etc from/with Italian companies can contact below mentioned address for any assistance:
